WORK EXPERIENCE

Oasis InfoByte

Web Developer   Jan 2023 - Feb 2023

During this internship, I developed several basic web pages, including a Landing Page, a Personal Portfolio, and a Temperature Converter, using HTML, CSS, and JavaScript.

PHN Technology Pvt Ltd

Web Development Intern   Apr 2023 - June 2023

I developed a responsive and user-friendly Table Booking Form for a restaurant's website, a College Homepage Website, an E-Commerce Online Shopping Website, and a Community Website using HTML, CSS, and JavaScript.

TestYantra

Full Stack Development Intern   Jan 2024 - Present

It is a Training Program based on Java Full Stack Development. In this training program I am up skilling myself with different technologies.

PROJECT

Diary with Lock
- Diary with lock is an app that will turn your Android device into a virtual diary.
- We developed an application that allows users to create, read, update, and delete diary entries, all of which are protected by a password.
- We used Java for the application, SQLite for database management, and Android Studio for development.

Vps/Edu.com
- Developed a College Website using HTML, CSS, Javascript.
- The website serves as an information portal for students, faculty, and prospective students, providing access to various resources, announcements and services.

Personal Portfolio
- Created a responsive and visually appealing personal portfolio website to showcase my skills, projects and experience.
- Implemented a clean design with sections for an about me, skills, projects, and contact information.
- Technology Stack: HTML, CSS, PHP (Backend), MySQL (Database).
